The mission of FASEB is to enhance the ability of biomedical and life scientists to improve, through their research, the health, well-being, and productivity of all people. FASEB is a coalition of independent Member Societies that serve the interests of biomedical and life scientists, particularly those related to public policy issues. FASEB facilitates coalition activities among Member Societies and disseminates information on biological research through scientific conferences and publications. FASEB also offers Member Societies headquarters facilities, and operational and logistic support.
